YOU.

If I could have my dearest wish fulfilled," And take my choice of all earth's trea And ask from Heaven whatsoe er I willed,

No man I'd envy, neither low nor high, Nor king in castle old or palace new; I'd hold Golconda's mines less rich than I, If I had you.

Totl and privation, poverty and care.
Undaunted I'd dety, nor fortune woo;
Having my wife, no jewels else I'd wear,
If she were you.

Little I'd care how lovely she might be, How graced with every charm, how fond, h E'en though perfection she'd be nought to me

There is more charm for my true, loving bear In every thing you think, or say or do. Than all the joys of Heaven could e'er impart, Because it's you.

A CLEVER SWINDLER.

The Cunning Schemes of a Most Accomplished Scoundrel.

Thirty years in the livery business gives a man a varied experience and a knowledge of men as well as horses.

I was standing in the door of my stable one afternoon just at the close of the civil war, when a medium-sized, hunch-backed man walked up and inquired if he could be accommodated with a first class rig for a few days, saying that he wished to investigate an extensive tract of mineral land in that and the adjoining county in the interest of a large syndicate in the East. I exercised the usual precaution of asking his name, where he was from, and if he could give me references. He readily answered my two first queries. but stated that he was a stranger in the place, but had letters, and produced a half dozen introductory epistles from as many gentlemen of national reputation. One was from our Congressman, whose handwriting I knew, and another was from the Governor of our State. It struck me that his credentials were strongly worded, but my desire to please so good a customer, and one associating with the elite of the land, induced my willing acceptance, and I ordered out the finest double team we In fact, it was the only pair it the stable that pleased him, and, as he seemed to have plenty of money and proposed paying an exorbitant price, I saw no reason why Mr. Albaugh should not have the pleasure of riding behind my eight hundred dollar bays. As he took the lines preparatory to starting he turned, with the air of a man who has forgotten something, and inquired if I wished a deposit, stating that he might not return before the third day. I replied in the negative, wished him a prosperous trip and bade him good day. I watched them disappear with a feeling of pride-proud to be the pos-

The third day came, and the fourth, I started in pursuit. At the railroad station I received a dispatch from a party inquiring if I had lost a pair of horses; if so, to await further particulars. I wired that I had, and demanded information about them. The next train brought the author of the message, who was the exact image of the man who had hired my team, excepting the hunch-back; the man who drove my team away was in this particular very much deformed, while this one was straight of build and differently dressed. This similarity was easily accounted for. The man who hired my borses was his twin brother, and an accident in childhood had occasioned the deformity and affected his mind. At times he imagined himself the these periods of mental aberration would occasion his friends much trouble and anxiety. One of these spells had seized him after leaving my stable, and he concluded to drive to his home in Cincinenti. While en route to that point husband of a beautiful and aristocratic train and ran away. The buggy was dashed to pieces. Albaugh was badly injured and death ensued, as the undertaker's certificate testified. One of the horses was killed and the other so crippled that it had to be killed. This was all told in such an earnest, plausible manner that it carried conviction, and when he begged to know how much money would settle the unfortunate affair, I was more than ever persuaded desires an interview.

tation which he had reserved for his special use; but urgent business calling him to Europe, and not caring to leave them in hired hands necessitated his

selling. "I bought the pair for \$2,000, and have many times been offered more than double that money, but \$5,000 would not tempt me. They have beauty and speed, and are to-day the fastest double team in the State."

"Could you describe the man from whom you bought them?" I asked. "Yes," said he, "the man from whom

I purchased was medium sized, appar ently forty years of age, with hair quite gray - prematurely, I should think-and his general appearance think—and his general appearance clerical. One would not have taken him for a stockman. He was well informed and one of the most agreeable conversationalists I ever met.'

I explained my part in the history of the horses and how I lost them. ignored my belief that they were the same horses, but I brought forward such overwhelming evidence in proof of my ownership that he agreed to sur-

I paid him \$1,000, the amount which I received from the rogue, feeling that he was the more injured of the two. and received back my team, mutually agreeing to spend another thousand, if eeessary, in bringing to justice our thief; for we were persuaded that the hunch-back, the twin brother and the clerical-looking person were one and

the same individual. A minute description was given to detectives in the various large cities of our country; police reports were carefully read, but nothing from our man could be discovered. Finally, believing that he had been picked up under some assumed name and imprisoned, I had almost allowed the matter to fade from my mind, when one winter, my health failing me, I heeded the advic of my physician and went to Florida. In St. Augustine I took board at a sort of select hotel, patronized principally by Northern families wintering there for health and pleasure, and all of them representatives of wealth. Among the guests at the dinner table my first rare beauty and engaging manners to whom I was introduced as Miss Effie whom I was introduced a McKnight, the only daughter of a locked up. Exchange.

—Two Kennebunk, (Me.), farmers

Our landlady turned to the daughter and said: 'Miss Effie, I have pleasing news for you. Count Van Earl has written, engaging rooms, saying we may expect him in a day or two.

At this announcement the count be came the topic of conversation, and I saw in the pleased smile which flitted across Miss Effic's face that the count's coming interested her particularly; and in the two days preceding his arrival, I noted the eager interest she took in every thing pertaining to him.

I have often thought that the pursuit of any coveted object up to the very eve of its possession is the most blissful state of human existence; there is nothing in the possessing of that object that even approaches the dreamy, hope ful, happy longing for the time to come

will be ours to hold in contentment. But this aside, Count Van Earl, I with those occupying seats so high in learned, had not only an immense fortune, but was heir prospective to an burgh. His travels had taken in every rian wilds and the splendor of Oriental bility was so promising an acquisition frost. to our select circle that it was not surprising to see an extra display of silver

arrival. My room opened fronting the hall, and as he ascended the broad stairway in company with his valet, I had a fair view of his face. It was the face of my notorious swindler and thief; est rain. With the medium or common possessor of property; and, during a face that once seen could hardly be forgotten, especially when the force of circumstances had photographed it on the memory, as in my case.

Now here was a dilemma. This man was society's pet and the affianced the horses had taken fright at a moving lady, and I a stranger. But I resolved to act, and act at once. So leaving the house I sought and obtained an interview with a well-known detective who carried the seal of authority, and acquainted him of the facts. Together we returned to the house, and walked boldly to the "count's" door. The officer introduced himself by giving his name, but not his business, and said: "Here is an old acquaintance who

"How do you do, Mr. Albaugh," said

I, "glad to see you." "What do you mean, sir," said he, "coming into a gentleman's room in "Under the circumstances," said he, this rude way? I am Count Van Earl,

"And here is mine," I answered, brother has led me, and the money his "You remember that team you hired clover so as to keep the water out, b kleptomania has cost me, you heart at my stable for a three days' drive. Bundles of cornstalks make good banking for the cellar. -Salt dissolved in alcohol will re

move arease spots from cloth. -Bent whatehones can be restored and used again by simply soaking in water a few hours, then drying them -New oak barrels should not be used for vinegar, as the tannin contained in

the wood injuriously affects the vinegar. -The agricultural needs of the country are crying loudly for men who will show us the science of common things -the things that lie closest to our daily life and necessities.

-Cracker Mince Pie: Three crackers rolled fine, two eggs, one cupful sugar, one cupful molasses, one-half cupful water, one-half cupful butter, one-half cupful vinegar, spice to taste, and raisins. This makes three pies. - Toledo

Blade. -Prof. Robertson, of Canada, claims that cream raised by the deep cold process produces a butter that is less highly flavored when first made, and is, in fact, often insipid at that time, but its flavor increases with age, and is at its best when several weeks old.

-Pickled Oysters: Rinse the oysters in their liquor, strain it upon them. and let them come to a boil; take them out of the liquor to cool. Prepare cider vinegar by boiling it with peppers a little salt, mace, cloves and nutmeg, and when cold pour it over the oysters and keep them in a covered stone jar.

-Boston Budget. One of the cheapest and best modes of destroying insects in pot plants is to invert the pot and dip the plants for a few seconds in water warmed to 150 degrees. A German paper, referring to this plan, says that the azalea will stand 133 degrees without injury. Usually heat the water pretty well, and pour in cool until 130 degrees is

reached. - Brooklyn Eagle. -Ginger Snaps: One large cup butter and lard mixed, one coffee cup sugar, one cup molasses, one half cup water, one tablespoonful ginger, one tablespoonful cinnamon, one table spoonful cloves, one tablespoonful soda dissolve in hot water, flour for stiff evening there, was a young lady of dough. Roll out rather thinner than sugar cakes, and bake quickly. These ginger snaps will keep for weeks-if

have come to grief recently from too close following of book and too little exercise of common sense. One had read it was best to dehorn a calf and the other that the best and most successful way to fat a hog was to cut off its tail. Both followed directions, but neglected to care for the animals afterward and the result was that both calf and hog became sick and died at the next cold spell of weather. - Chicago

GRASS AND CLOVER. Suggestions Relating to Early Seeding and the Handling of Seed.

I adopted the rule of early sowing about ten years ago, after having made some disastrous failures from late sow ing. Farmers on clay land can not dewhen the cherished idol of our hearts pend on harrowing in the spring for not more than once in three or four years will the land get dry enough to harrow before the wheat is too large to have a harrow pass over it. I think more than extensive landed estate in England and half the farmers in the country will tell and still no return of my team. Leaving my business in the care of an email and had taken an extra course in Edin-killed by freezing, and yet a little investigation would show that there is point of the compass, and he talked more danger of late sown clover being like a book about the beauties of Sibe- killed, for the simple reason that there has been no freeze to cover it, and its skies; he had touched the mold and sprouts lie directly on the surface, and must of ancient tombs, and walked on account of not being covered it starts with the Turk among his modern graves; in fact, this titled scion of no-

In regard to the handling of seed clover, we can not lay down a set of on the table for the greeting of the rules which are never to be deviated from. There is no difficulty whatever I remember well the morning of his in hulling the mammoth clover from the field, as it is cut the last of July or first of August, when the days are long and the sun hot, and two or three days will dry it out perfectly after the heavired clover which must often be threshed as late as October. threshing from the field is very uncertain and unsatisfactory, and in a neighborhood where nearly every farmer grows clover seed, and machines are scarce, the farmer will often lose his crop unless he stacks it or puts it under cover. In the fall of 1886 there were thousands of acres of clover cut for seed in a radius of ten miles of my farm, and not threshed at all, because the machines could not get around to it. Often a machine could not run until after noon on-account of heavy dews followed by a cloudy morning; and a light rain, if followed by cloudy weather, would keep the machine idle for two or three days. I should have lost my little crop of six acres if I had not stacked it, but has ing it stacked and perfectly dry, th machine came and we ran it through before the dew had dried off on the neighboring farm where the clove

was in the swath. There is no difficulty in stackin only twelve feet wide and as long as The rogue wilted at once and begged necessary, and top it out with a slop the studding. Arranged in this w come directly after a rain and three while your neighbor waits for his better in the long run to build barrae convenient to the barn yard, so clover straw can be run into the ye with corn fodder for winter use. So barracks need have no floor excep temporary one or rails or poles to k the clover or fodder from the grou and can be used to shelter the to temporarily in the summer, or for de ing under with a load when a suc matches, and so like a familiar pair that I once owned.

"Country Gentleman."

Vassar Girls as Bootblacks.

A recent Vassar graduate was re lating some of her experiences housekeeper during the illness of her mother, and was commenting upon the ndisposition of servant girls in the United States to black the boots of the men of the family. In households in England, she said, where there is only one hired girl, the polishing of the men's shoes is accepted as one of her duties. Then another Vassar girl recalled the time when a number of her classmates helped to shine the boots of a gentleman visiting at the college. He was, and is still, a trustee of Vassar. He occupied one of the guest chamber, and when he went to b left his shoes outside the door as if he were in a hotel. Some of the girls who were up at an early hour saw the boots, and thought it would be a good joke to do the bootblack act themselves. They did, and when they returned the shoes they stuck in each a handsome bouquet of flowers. The trustee was half abashed and altogether surprised when he realized how he had been honored. Tradition though it occurred but a little while ago-tells his name as that of Benson J. Lossing, the historian. - N. Y. Sun.

BLINDED BY PREJUDICE.

me Striking Situations Into Which Well-Informed Persons Are Led. There is no end of witchcraft and dece tion. Years ago persons suspected of the "strange infatuation" were thrown into the water -if guilty of witchcraft, they would

For many years the world was shocked at such inhumanity of man to man, but if we were to declare that people are perse-cuted to-day quite as remorselessly as were the so-called witches of old, our state-ments might be received with great incre-

dulity.

But it is a fact.

If you do not believe it, enter any one of If you do not believe it, enter any one of the schools of medical practice, and attempt to use a preparation which the code does not recognize, or even to recommend indi-rectly any popular remedy, such for in-stance, as Warner's celebrated kidney rem-edy and then relate your experience.

edy and then relate your experience.
Then you'll admit the fact. Then you'll admit the fact.

Let us be frank with you, reader. We tell you that this is downright bigotry.

Merit demands and is entitled to recognition, wherever found. If geologists tell us that diamonds must always be found in sand, would you not be a fool, if you found one in gravel, not to take it and "realize"

on it!
Your friends would call you foolish.
The trouble with the doctors is that they can't cure advanced diseases of certain forms, and they know it. And yet they will the place they are of any outside proprietary not allow the use of any outside proprietary medicine, which they know has cured the

Kidney disease has no marked individual symptoms. It produces all sorts of symp-toms of the commonest diseases. Not being able to treat the disease itself with success, the bigoted physician treats these symp-

But what good does that do! In order to stop the freshet, you must stop the flood! It won't do to try brushing it away with a

Dr. J. G. Holland, whom all the world adnired as a teacher of sense, wrote in Scrib-ner's Monthly: "It is a fact that many of ner's Monthly: "It is a fact that many the the best proprietary medicines of the day are more successful than many physicians, and most of them were first discovered and used in actual medical practice."

Dr. Robson of the Royai Navy of England

enthusiastically endorses Warner's safe cure, as indeed do many hundreds of thou-sands all over the world. The late Dr. Dio Lewis, who almost never used medicines commended it highly and said if he had an kidney disease he would use it.
This evidence is conclusive.
Paralysis, consumption, pneum

plexy, heart disease, general debility, rheumatism, all these common disorders are
often only symptoms of kidney disease. Instead of admitting their inability to cure
this disorder, doctors give their attention
to the symptoms. If they cure one, another
comes, and finally death takes the case out
of their hands. Then they disguise the fact
that it is bright's disease of the kidneys and
say that death same few security. that it is bright's disease of the kinneys are say that death came from paralysis, apoplexy, pneumonia, consumption, general debiity, rheumatism, heart disease, blood poisoning, or some other of the names of the direct effects of kidney disease. They

are not the real disease itself.

We do not believe every advertisement that we read. Some people may per haps regard this article as an advertisement and will not believe it, but we are candid enough to say that we believe the parties above mentioned have proved their case, and under such circumstances the public is unwise if it is long influenced by adverse

Tennyson, in his exquisite poem, dreams of a long procession of lovely women of ages past. This is all very well, but the laureate would have done the world a greater service if he had only told the women of the present how they could improve their health and enhance their charms. This he might easely have done by recommending the use of Dr. Pierce's Favorite Breactiption. Health is the best friend of beauty, and the innumerable ills to which women are peculiarly subject, its worst senemics. Long experiences has proven that the health of womankind aind the "Favorite Prescription" walk hand in hand, sind are inseparable. It is the only medicine for women, sold by druggists, under a positive guarante from the manufacturers, that it will give satisfaction in every case, or money will be refaction in every case, or money will be re funded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Some years ago writing story books for allying was regarded as a novel industry.—
N. O. Picayana.

You can get a beautiful picture ("A Message of Love") that can not be distinguished from a line water color worth \$25. A full size paper pattern worth \$25 cents—design and size of your own selection—besides the finest magazine published. Send for the February number that contains this wonderful picture and pattern order. Price, 30 cents. Or ask your newsdealer to get it for your inspection. Toll him if he sends for it for you to see, he will probably sell hundreds of them. Published by W Jennings Demorest, 15 East 14th St., New York.
